PARSONS BRINCKERHOFF
BALTIMORE OFFICE

Dear Mr. von Briesen:

Thank you for your letter of October 11th and the historic resources summary for the Central Light Rail project. We have reviewed the list of structures listed in "Exhibit C" (Section 4.12) and have the following comments regarding their eligibility for the National Register (NR) and Maryland Register (MR) of Historic Places:

1. Glen Burnie B & A Railroad Trestle (remaining concrete abutment) - not eligible for the NR or MR;
2. Ferndale B & A Railroad Trestle - not eligible for the NR or MR;
3. North Linthicum B & A Railroad Trestle - not eligible for the NR or MR;
4. Linthicum Station - There is not enough information about the station's alterations for adaptive reuse to determine whether it would be eligible for the NR or MR;
5. 501-503 N. Howard Street - would be eligible for the NR or MR as part of an extension of the Howard-Lexington Historic District;
6. Melvale Distillery - eligible for the NR or MR;
7. St John's Church and Parsonage - listed in the NR and MR;

Department of Housing and Community Development
Shaw House, 21 State Circle, Annapolis, Maryland 21401 (301) 974-5000

AA-1041

Mr. John W. von Briesen

Page 2

8. Stevenson House and Riderwood Station - both eligible for the NR and MR as part of a Riderwood Historic District (boundary not defined);
9. 1601 Lutherwood-Riderwood Drive - listed in the NR as part of the Lutherville Historic District;
10. Thomas Fortune House, Powell Griscom House, Station Master's House, Ward-Cole House, 9907 Railroad Avenue, Frank Gagliano House, John Burns House, Kenny-Concannon House and McDermott's Tavern - all eligible for NR and MR as part of the Texas Historic District;
11. Cockeysville Freight Station - eligible for NR and MR;
12. National Bank of Cockeysville - eligible for NR and MR; and,
13. Cockeysville Hotel Stable - not eligible for NR or MR.

In addition, the historic assessment should show the boundaries for all historic districts, such as Woodbury and Lutherville, which are adjacent to or intersected by the rail line. Then the effects of the rail line on the entire district should be assessed with particular attention to some individual buildings, e.g., 1601 Lutherville-Riderwood Drive which is close to the proposed line.

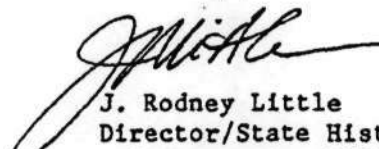

We also recommend investigation of alternatives to avoid any adverse effects of the new line on historic buildings. At this time, there appears to be only one potential for adverse effect, the possible demolition of 501-503 N. Howard Street for the downtown substation. We strongly urge you to investigate the use of other sites which would not require the demolition of historic resources.

We understand that the Baltimore Center for Urban Archaeology (BCUA) will be preparing an assessment of the project's effects to archeological resources, as the design plan develops. Based on the preliminary project descriptions, it appears that those aspects of the project most likely to impact archeological sites are the proposed stations, parking facilities and construction access/staging areas since the majority of the rail line itself will follow existing rights-of-way. We look forward to receiving the results of the BCUA's assessment. Further consultation with our office will be necessary to complete the project's archeological review as project plans progress.
